**INSPECTION AGREEMENT**

You, the undersigned Client, herein referred to as “You/Your”, have requested that We, along with our employees and any persons conducting inspections, herein referred to as “We”/”Our”/”Us”, conduct an inspection of the Property consistent with the terms and conditions of this Agreement (Small case will be used for grammar). The inspection service is being provided at the request of you, our Client, and is intended for your exclusive use and benefit. Not all conditions are apparent at the time of the inspection, so it is recommended, and you agree herein, to consult with the Seller of the property regarding any significant deficiencies/malfunctions known to exist to the Seller. Please read the final report carefully, as additional information and details concerning the nature of the inspection are found in the report.

**SCOPE OF THE INSPECTION**

**Visual Home Inspection** – The Home Inspection you receive is a **non-invasive, visual** examination of the readily accessible items identified in the inspection report. The inspection is designed to identify unsafe/non-functioning systems, structures, and/or components that **were exposed to view and apparent as of the time/day of the inspection**. A written inspection report will describe and identify the inspected systems, structures, or components of the building inspected, and shall list any unsafe or non-functioning systems, structures and components observed during the inspection. The inspection report is a written opinion of a trained home inspector based upon what was visible and evident at the time of the inspection. The report is not a listing of repairs to be made and is not intended for use as a guide in re-negotiating a real estate transaction. Items that are not listed in the inspection report were not inspected and are not included under the scope the inspection service provided. It is agreed that the inspector is not , as part of the inspection, determining compliance with the installation guidelines, construction documents, manufacturers specifications, building codes, local ordinances, zoning regulations, covenants, or another restrictions , including local interpretations thereof.

**Inspection Standards** – The home inspection and/or systems inspected will be performed in accordance with the scope and standards of practice of the *American Society of the Home Inspectors* (ASHI).
